TEACHING EXPERIENCE

In-person high school teacher · Python programming Aug 2024 – Oct 2025

Preparatoria ISELAC

Classroom lessons from Python fundamentals to object-oriented programming, with game projects in PyGame. Focused on logical and creative thinking, and on giving every student the confidence to apply what they learn to real projects.

Teacher Sep 2026 – present

Coding Giants España

Online programming lessons for students in Spain.

Online tutor Jan 2026 – present

Algonova

I guide each student through learning to program with personalized support and dynamic, practice-focused sessions.

Academic coordinator and teacher Jun 2024 – Oct 2025

Algorithmics Global

Taught programming to kids and teenagers and coordinated the teaching team: teaching strategies, relationships with families and enrollment.

Office Systems Operator teacher Feb 2023 – Nov 2024

Instituto Educativo Lázaro Cárdenas

Taught Word, Excel, PowerPoint and other productivity tools, applied to real work and study situations.

DEVELOPER EXPERIENCE

Front-End Developer · Django and Tailwind Dec 2024 – Oct 2025

Asociación de Agentes Aduanales de Lázaro Cárdenas

Designed and built web apps to manage port services, with clear interfaces on top of Django.

Backend Developer · FastAPI Aug 2024 – Dec 2024

Asociación de Agentes Aduanales de Lázaro Cárdenas

Designed and built RESTful APIs with FastAPI for a customs lookup platform, making data access and management more efficient.

FEATURED PROJECTS

- **Caza de Monstruos (Monster Hunt)** — A team game about hunting legendary creatures, with four modes, an obby zone and full progression.
- **Build a Pipe! [Plumbing Simulator]** — A plumbing simulator: connect pipes, manage pressure and fix breakdowns across two game modes.
- **Haunted Obby** — A Halloween obby with a haunted setting and in-game paid products.
- **El Culto del Juicio (The Judgment Cult)** — A Project Zomboid mod that adds a cult with bosses, arenas and its own story.
- **Agenda Docente (Teacher Planner)** — A Chrome extension that brings schedules from several teaching platforms into one place.
- **Customs lookup platform** — Professional work: APIs and a web app to look up customs data and manage port services.

EDUCATION

B.Eng. in Computer Systems 2025 – 2027
Utel Universidad
In progress.

B.Eng. in Computer Systems 2024 – 2025
Instituto Tecnológico de Lázaro Cárdenas
Engineering studies.

Diploma in Digital Skills for Teaching 2025
Fundación Carlos Slim
Information technology applied to teaching.
